

HAVERFORD CAMPUS SAFETY & SECURITY OVERVIEW

Overview

Department

- 23 Full time Officers and Supervisors
- On-duty 24/7
- Unarmed and Non-Sworn
- Includes Fire Safety and Risk Management
- In a collaboration of best practices (and senior management) with Bryn Mawr's Department of Public Safety

Philosophy

- Diverse department – widely varied in experience and education
- We are teachers outside the classroom
 - Students will learn much outside of the classroom
 - Help to get them through without permanent damage - while not shielding them too much from the 'real world.'
- Reasonable Accommodation and Professional Courtesy
 - Officers treat students, staff and faculty like they would want their own family members treated.
 - Professional courtesy is a *job requirement* for the staff at Public Safety (not an option).

Crime

- The 'Haverbubble' does not shield students from federal, state and local laws and ordinances .
- Crime is low – but it does occur here.
- No need to be afraid – just aware.
- Local Police (Haverford and Lower Merion)
 - We have great relationships with both departments
 - They typically call us before coming to campus for a specific reason or response

Crime Statistics

	2009	2010	2011

Technology

- Haverford Administration chooses to be proactive and cutting edge with technology – not because there have been serious problems but to minimize the chance that there ever will be.
- Emergency notification network will broadcast alerts in a critical incident via text, voicemail and e-mail.
Haverford Hotline – 610-896-4299 – Recorded Messages
 - Emergency updates
 - Snow day alerts

You are Campus Security Authorities as defined by the Department of Education

- As such, you need to report crime – even if confidentially, to Public Safety.
- Please read the handout on HELPING STUDENTS IN DISTRESS
- Crisis Management Team
 - Representatives from the Deans Office, Counseling and Psychological Services, the Health Center, Athletics and Safety and Security get together weekly to discuss issues (and students) of concern.
 - The idea is early identification and use team approach to resources to help students.
 - As teachers, you are in a unique position to observe student behavior and are therefore an important part of identifying student who may need help.
